

# FEATURES AND BENEFITS

## FOR SHAREHOLDERS

Shareholders find all AGM-related documents and media in one place from where they can also ask questions and vote on resolutions

### Ease of Use

WebAGM was designed with the shareholder in mind. All relevant communication and activities are condensed in one place and optimised for mobile use.

### Asking Questions

Allowing a longer time window to ask questions enables shareholders to engage on areas of their concern without time or live performance pressure.

### Geographic & Time Flexibility

Shareholders can easily engage online regardless of their geographic proximity to the Corporate and at times convenient to them.

### Voting on Resolutions

Registered shareholders can inform themselves about details of resolutions and Board members standing for election and can then cast a qualified vote.

## FOR CORPORATE USERS

WebAGM provides the corporation with an intuitive online management platform to administer all elements of AGM-related shareholder communication

### Modern Interface

WebAGM offers a convenient, central and mobile-friendly interface for your shareholders to engage online prior, during and after the AGM. You can manage all content, availability dates, documents and media files from any web-enabled workstation.

### Secure Data

WebAGM works with a 128-bit data encryption as standard. Further security options such as defined IP address ranges are available on request.

### Pre- / During- / Post- AGM

WebAGM comprises the entire AGM-related functionality on one platform which can be used before, during and after the event. WebAGM also includes event management features for your in-house team or production agency.

### Shareholder Verification

Shareholders are validated for their holdings by cross-checking ownership data from your registrar. You can set all date ranges for the online availability of shareholder services.

## EXECUTIVE SUMMARY

WebAGM is an innovative online platform developed in response to the increasing desire for Corporate AGMs to offer not only a physical meeting experience, but also a seamlessly-integrated online experience before, during and after the Event.

Whether you're looking to deliver an exclusively-online AGM or a more transitional "hybrid" on-site/online Event, WebAGM is for you.

By widening the opportunities for shareholders to engage and participate online, companies can reduce the size, complexity and scope of the physical part of the event and therefore the total production, venue and staffing cost of the AGM.

If you wish to be part of this exciting future, please contact us:
